ABOUT US

COME IN AS A NOVICE

LEAVE AS A PROFESSIONAL

INTRODUCTION:

SUBWEB Technical Academy is an academy with a multi-disciplinary approach. Our primary focus is to deliver quality education in inland and offshore diving, underwater welder training, Subsea Systems, ROVs along with professional safety training.

SUBWEB Technical Academy management and instructors are passionate about education AND ensure students studied under a well-equipped and conducive environment.

STA GOAL:

To be the most prestigious commercial diving institute in Nigeria, we have been constantly upgrading our courses, curriculum, facilities, certifications, equipment, and technology to meet the international standards of commercial diving.

SUBWEB Technical Academy believes in invest more on the future of people through education because it's a way of equipping people for the future. Our extensive research and knowledge in the industry has allowed us on to this conclusion and assisted STA to stay ahead of the current trends in various underwater fields, ranging from oil industry to inland harbors to international rivers.

PURPOSE OF ESTERBLISHMENT OF SUBWEB TECHNICAL ACADEMY:

To close the manpower gap in Nigeria. Save capital flight and reduce individuals, organization, and other stakeholders STRESS interested in skills development in Nigeria.

OUR MISSION:

We have established our platform with the sole mission to be the leading technical academy in Nigeria, by providing necessary training and education to students worldwide, so that they can embark upon an exciting and successful career in various fields. Our courses are aligned with modern equipment and industry needs thus providing our graduates an extra advantage.

OUR VISION:

Since inception, our vision is to deliver training based on real world experiences. We have always remained focused on preparing our graduates for mainstream professional subsea careers.

With our coherent, up to date and concise courses, we enable our graduates to learn standard professional practices in the minimum time possible. Our training crew and staff members are friendly and supportive and under their guidance, our graduates will also learn to make a productive and fruitful career choice.

Engr Julius UGWALA. MIDSSC, FIPMA Nig, FCIML USA.

Welcome to SUBWEB Technical Academy, one of Nigeria's finest schools tailored to meet the training needs of the Maritime, Oil and Gas sectors. Laced with instructors who have put in over 30 years of active practice in the industry both in Nigeria and overseas.

The Academy, was institute in 2013, registered in 2019 and began full operations, is today known beyond the Nigerian shores and referred to as one of Africa's leading training schools.

STA Provides Technical Training.

- Commercial Diving Courses
- Remote Control Vehicle (ROV) Courses
- Subsea Training Course
- Welding and fabrication
- Underwater Welding
- Underwater Burning
- Practical Welding & Fabrication Session
- Theoretical Knowledge of Welding & Fabrication
- Lifting & Hoisting Training
- Subsea & Marine Lifting Operations Training
- Diving Safety Specialist Training

Other Courses Available include the Oil & Gas Sector

Others Awareness Level Training Available

- General Workplace Safety Awareness (Safety is a Personal Decision)
- Industrial Hygiene
- Fire Prevention and Protection
- Fire Extinguisher Use
- First Aid Awareness
- Housekeeping Safety
- Office Safety
- Ergonomics
- Back Safety and Safe Lifting
- Electrical Safety
- Drug and Alcohol Awareness
- Confined Space Safety
- Distracted Driving
- Hazard Communication
- Home Fire Safety
- Hearing Conservation and Noise Control
- Personal Protective Equipment (PPE)
- Hot Work Safety Awareness
- School Laboratory Safety
- Fall Protection
- Hazard Identification (HAZID)

- Employee Substance Abuse Awareness
- Emergency Response Plans
- Effective Safety Communication
- Compressed Gas Safety
- Basic Air Monitoring
- Crane Safety
- Blood borne Pathogens
- Behavioral Based Safety
- Incident Investigation, Reporting & Prevention
- Job Hazard/Safety Analysis
- Flammable and Combustible Liquids
- Hazardous Materials Awareness
- Food Safety Level 1
- Kitchen Safety Awareness
- Materials Handling
- Construction Safety Awareness

Certified HSE Courses

- Work at Height
- Rescue from height
- Confined Space Entry
- Rescue from Confined space
- Advanced First Aid
- Level 1 – 3 HSE Competence
- Basic Fire Fighting
- Fire Warden Training
- HSE Train-the-Trainer Course
- Energy Control (LOTO)
- Safe Handling of Chemicals (SHOC)
- Respiratory Protection (SCBA)
- HSE Supervision
